

HEADSET MasterVC

The Headset for any situation

Multipurpose versatility

The Master VC headset is ideal for all applications that require optimal voice communication: Internet telephony (VoIP), network-based computer games with voice support, videoconferences, speech recognition, messenger applications with audio functionality and many others.

Volume controller on the cable

The Master VC headset's quality audio also lets you enjoy music from your PC or CD player. Use the inline controller to adjust the volume at any time without having to open the virtual volume control of your sound card.

Maximum comfort

The lightweight design of the headset guarantees comfort — even for hours at a time. The adjustable headband and flexible microphone boom ensure a perfect fit for any head shape. And thanks to the color-coded jacks, nothing can go wrong when plugging the headset in.
