

CINERGY MOBILE MICRO

Digital television for Android and Windows

- DVB-T receiver for Android and Windows systems
- Recording function
- Connection for external DVB-T antenna
- Free of charge Android App
- Elegant and compact design

Making television easy

Only six grams – this is all the CINERGY MOBILE MICRO needs to allow digital television on Android or Windows devices. The TV stick receives television signals via an external DVB-T antenna which is included in the scope of delivery and only has to be connected to the stick. Then it is possible to connect the CINERGY MOBILE MICRO to the Smartphone, Tablet or Notebook.

No additional power source required

Mobile television is becoming as comfortable and easy as never before with the CINERGY MOBILE MICRO. The handy and elegant stick receives all DVB-T programs (MPEG 2/MPEG 4) which are available in the corresponding territory.

Compatible with numerous Android and Windows versions

The precondition to be able to use CINERGY MOBILE MICRO is an Android device which is working with the operating system Android 4.0.3 and is supported by a Dual-Core-CPU, NEON and USB-QTG. On Notebooks all Windows systems from XP on are compatible; only a 2.0 GHz processor and at least one gigabyte RAM is required in order to conjure digital television on the screen. Beside the DVB-T antenna also an antenna adapter, a USB cable, instructions and a service card are included in the scope of delivery of the CINERGY MOBILE MICRO.

CINERGY MOBILE MICRO
