VideoSystem

CAMEO ²⁰⁰DV

Digital Video Editing System

Everything you need to get off to a successful start editing digital video.

No matter whether you want to make a cinematic masterpiece from your latest vacation videos, capture your children's best moments, or produce your own music video with sound and special effects: the CAMEO 200 DV gives you everything you need to get off to a successful start editing digital video with your PC.

CAMEO 200 DV FireWire™-Controller - The ultra high-speed connection for your camcorder

or video recorder

Use the CAMEO 200 DV to make transferring video from your digital camcorder or video recorder to your PC simple and loss-free, so you don't have to sacrifice quality. The FireWire™ port lets you achieve data transfer rates of up to 400 Mbps (approximately 50 MB/s!). In addition, up to 63 FireWire ™ devices such as hard disks, CD burners, scanners, or printers can be connected. All that, and hot plugging capability too, so that individual components can be added or removed without having to shut down your PC.

Cyberlink PowerDirector 2.0 DE - Turn your PC into a digital editing studio

Create fascinating effects and spectacular 3-D transitions. Insert movie titles and texts and create the right musical soundtrack or background sounds. With Cyberlink PowerDirector Pro 2.0, there are no limits to where your creativity can take you.

Making sophisticated creations is child's play, and numerous features (such as camera remote control) make it easy even for novices to achieve perfect results—without having to wait forever for image editing. Thanks to the SmartRender technology, only the edited sequences are processed, not the entire video.

Finished? All you have to do now is burn onto a VCD, SVCD, DVD or mini-DVD (on a normal CD-R/CD-RW or DVD-R). Just a few mouse clicks from within the program and you're done.

Digital Video Editing System

Technical Details

Hardware

- PCI FireWire™ controller
- IEEE-1394 OHCI compatible
- 3 FireWire™ ports (all 6-pin)
- Connection for PC power supply
- Supports up to 63 FireWire™ devices
- PCI 2.1 compatible
- Shielded 6 pin/4 pin FireWire™ cable (1.80 m)

Software

- Cyberlink PowerDirector Pro 2.0 DE
- WinMorph
- AVI Screensaver
- Musicmatch Jukebox
- DirectX8.1
- Adobe Acrobat Reader

System requirements

- 1 free PCI 2.1 slot
- Pentium III, 450 MHz or higher
- 64 MB RAM
- CD-ROM drive (to install drivers/software)
- CD burner (to create a VCD/SVCD/mini-DVD)
  or DVD burner (to create a DVD*)
- Fast hard disk (SCSI or IDE with support of Ultra DMA
  33/66) with a data throughput of at least 3.6 MB/s
- Windows 98 SE, ME, Windows 2000 or Windows XP
- DV / D8 camcorder (with DV-In enabled)
- The creation of VCDs, SVCDs and DVDs requires a CD-R
  or DVD burner.

Recommended System

- 1 free PCI 2.1 slot
- Pentium 4 or Athlon processor
- 128 MB RAM
- 1 available 5.25" expansion slot (for the installation of
  the Cameo Connect front module)
- CD-ROM drive (to install drivers/software)
- CD burner (to create a VCD/SVCD/mini-DVD)
  or DVD burner (to create a DVD*)
- Separate fast hard disk (SCSI or IDE with Ultra DMA
  33/66 support) for recording and playback of video data
  with a data throughput of at least 3.6 MB/s
- DV / D8 camcorder (with DV-In enabled)
- Windows 2000 or Windows XP with NTFS file system

*) requires a compatible CD/DVD burner

Art.Nr.:	1452
EAN-Code:	4017273614526
Warranty :	24 month
